

INSIDE RIGHT

The diagram illustrates the layout of a book cover, showing the relative positions of the Inside Right, Back Cover, and Front Cover panels. The layout is defined by four types of lines:

- BLEED** (Blue line): The outermost boundary of the cover.
- TRIMLINE** (Red line): The inner boundary of the cover.
- SAFETY** (Green line): The boundary of the safety area.
- FOLD** (Dashed red line): The line indicating where the cover will be folded.

The layout shows the following panels and their boundaries:

- INSIDE RIGHT**: The leftmost panel, showing the inner and outer boundaries and the safety area.
- BACK COVER**: The middle panel, showing the inner and outer boundaries, the safety area, and the fold line.
- FRONT COVER**: The rightmost panel, showing the inner and outer boundaries, the safety area, and the fold line.
